Press Release

SPRINGFIELD
SPRING & STAMPING

NOT ALL FIREARM MAGAZINE SPRING MANUFACTURERS ARE CREATED EQUAL

East Longmeadow, MA, February 14, 2022: Ease your “PAIN” and maximize the performance of your Firearm Magazine Springs with the Technical Doctors and Surgeons of Springfield Spring & Stamping.

Springfield Spring & Stamping, manufacturer of precision-engineered springs, wire forms and stampings is pleased to introduce MAGMED. www.magmed-sss.com Since 1942 and celebrating 80 years in business, Springfield Spring & Stamping has earned the reputation as one of the premier manufacturers of precision-engineered magazine springs in the firearms industry. Using state-of-the-art CNC-controlled machinery and Solidworks CAD software, Springfield Spring & Stampings Engineering and Production Teams have developed an innovative magazine spring qualification program capable of helping customers significantly reduce the amount of time necessary to bring new magazine springs to the market. Our MAGMED program offers:

- Rapid Prototyping – 1 to 2 weeks to optimize form, fit & function
- Magazine Spring design assistance (All Calibers / Multiple Rounds)
- Material selection (High Tensile Missile Music Wire, 17-7 Stainless Steel)
- Single & Double Stack Configurations
- CAD-based drawing assistance
- OEM Reverse Engineering
- Dynamic & Static Load Testing
- Surface coatings (Passivation – Dry Film Lubrication – Black Oxide)
- Special packaging to minimize entanglement

**Some call it a Magazine Spring. We refer to them as:
“ENGINEERED AMMUNITION DELIVERY SYSTEMS”**

Unparalleled Engineering and Magazine Spring Development for Commercial and Military Firearms Since 1942
