Press Release

**SPRINGFIELD
SPRING & STAMPING**

The Difference is the Experience

ISO 9001:2015 & ISO 13485:2016 Registered

"Success does not come from being a powerful leader; it comes from leading powerful people"

East Longmeadow, MA, August 9, 2018: Springfield Spring & Stamping, www.springfieldspring.com manufacturer of precision-engineered springs, wire forms and stampings takes great pleasure in announcing the team of Tiger Electronics, Inc. has been chosen to represent Springfield Spring & Stamping for the New England Territory. This territory includes: Connecticut, Massachusetts, Vermont, New Hampshire, Rhode Island and Maine.

Tiger Electronics, Inc. www.tigerelect.com is located at 352, Park Street, Suite 102 West, North Reading, Massachusetts. Tiger Electronics, Inc. has been manufacturer's representative to the Electronics and Electro-mechanical industry for over 15 years. Their Agency has six dedicated technical-degreed Field Sales Engineers, each with over 25 years of sales experience in New England.

The combined resources of Springfield Spring & Stamping and Tiger Electronics can offer customers a host of component engineering development and qualification services at the formative stage of design.

At Springfield Spring & Stamping, our approach to "Best-In-Class" quality and service includes a multidisciplinary team of Black Belt-Certified Engineers to readily address the projects and needs of our customers. Our teams use Six Sigma, Lean Manufacturing and other tools to efficiently help our customers navigate concepts into reliable and validated production solutions.
